

# Long COVID/ COVID sequelae

(新型コロナウイルス感染症の後遺症)

We treat various health problems after novel coronavirus infection/COVID-19, traditional Japanese herbal powder medicine.

COVID-19 の後遺症に対して日本の伝統的な粉薬による治療を行っています)

・ Medical practice and treatment are covered by insurance, and there are payments just like other diseases. (保険診療であり、他の病気と同じく通常の支払いがあります)

People who meet all of the following criteria are eligible to receive outpatient care:

(以下の全てに該当する人は、外来診療を受けることができます)

①Who is able to take herbal powder medicine

(ハーブなどを原料とした粉薬を飲むことができる人)

②Who is diagnosed as novel coronavirus disease (新型コロナであると診断された人)

③Who suffer from symptoms by sequelae of novel coronavirus disease/long COVID, such as fatigue, cough, breathing problem etc.

(疲れやすさや息切れなど、COVID 後症候群の症状がある人)

④Who can communicate by Japanese or English, or who can come with a translator.

(日本語または英語で会話可能、または通訳と一緒に来院できる)

【Attentions】(留意点)

\* Who are receiving home oxygen therapy (在宅酸素療法を受けている場合)

Please get a permission from your own doctor to take Japanese herbal medicine for sequelae, because you need to continue to visit your current hospital.

Also please bring your doctor's referral letter with all your test results including X rays and CT scans.

(主治医に漢方薬の服用の許可を得て下さい。主治医の紹介状と検査結果も持参してください。現在通院している病院にも継続して通う必要があります。)

\* Who are not receiving therapy for sequelae of novel coronavirus does not need a referral letter.

(後遺症の治療を受けていない方は、紹介状は必要ありません。)

Appointment is required ;
